

Berenberg EM Bonds ESG I USD

Actively managed fixed income fund

Investment Strategy

The Berenberg EM Bonds ESG invests in sustainable Emerging Markets hard currency debt using an actively managed quantitative investment approach. The fund focuses on fundamental strong and sustainable countries and, in addition, also comprises ESG-compliant corporates. The investment process is complemented by a continuous and multi-level risk management. Foreign currency risks are statically hedged against Euro. Active approach, i.e. index weights have no influence on individual stock selection.

Fund management comment

July was a month of two halves. Initially, weaker US labor market and inflation data led to an optimistic sentiment, boosting hopes for rate cuts starting in September. In the second half, the expected summer lull set in, accompanied by weak sentiment due to the US earnings season and falling commodity prices. Over the course of the month, 2-year and 10-year US yields declined by 50 and 37 basis points (Bps), respectively. Spreads on EM sovereign and corporate bonds widened by 10 and 13 Bps, respectively. The Berenberg EM Bonds ESG Funds delivered strong absolute and relative performance, primarily thanks to its duration strategy. The fund management increased both the duration and sensitivity to interest rates before.

Consideration of ESG Elements

ESG Score

The data provider MSCI ESG uses an ESG score of 0 to 10 to assess the management of material ESG risks of portfolio holdings compared to competitors.

Benchmark composition: ESG Score: 70% JPM EMBI Global Diversified Index (Sovereign Bonds), 30% JPM CEMBI IG Index (Corporate Bonds)

Sovereign Bonds

Countries are excluded if international human rights and environmental conventions are not recognised, or if they are classified as particularly belligerent. In addition, a lack of democratic values, the death penalty or a particularly high military budget leads to exclusion.

Democracy and civil liberties

Freedom House rates countries on a scale of 0 to 100 points in terms of their political and civil rights.

Benchmark composition: JPM EMBI Global Diversified Index (Sovereign Bonds)

Corporate Bonds

Identifying long-term successful companies and business models is the basis for good investment decisions. ESG factors are key factors in decision making and are therefore integral components of the investment process.

ESG Controversies Screen

Investments in the fund are monitored for ESG controversies and, with the help of MSCI ESG data, flagged according to their severity. Thereby, potential ESG risks of investments are identified. In the case of an orange flag (severe controversy), we enter into an active exchange with the company. In the case of a red flag (very severe controversy), the company is excluded.

CO2 Intensity

The fund does not actively manage its carbon footprint, however, emissions data such as CO2 intensity are relevant parameters which can be used to assess the efficient management of a company and the extent of transition risks.

Weighted average CO2 intensity - in tons of CO2 per USD 1 million revenues

Glossary & Methodology

Active Ownership

The term "Active Ownership" encompasses all our activities where we, as an investor, attempt to positively influence a company's management of ESG aspects. This includes Engagement, i.e. direct dialogue with companies to discuss specific ESG objectives as well as proxy voting, i.e. our voting recommendations to our fund administrator, which then exercises the voting rights at general meetings.

CO2 Intensity

The CO2 Intensity (Scope 1 & 2 emissions) per company is multiplied by its portfolio weight (current value of the investment by current portfolio value) and summed up. This weighted average CO2 Intensity provides an indication of the portfolio's exposure to CO2-emission intensive companies.

ESG Controversies Screen

MSCI ESG analyses controversial business practices from the five areas environment, human rights, labour rights & supply management, customers and governance. The controversies are rated according to their reputational risk as well as the operational handling by a flagging system. Green indicates no or weak controversies, yellow indicates moderate controversies, orange indicates severe controversies and red indicates very severe controversies.

ESG Score

Using a score between 0 (lowest) and 10 (highest), MSCI ESG assesses the ability of portfolio holdings to identify and manage environmental, social and governance-related risks compared to peers. The ESG scores are assigned at the holding level and are aggregated at the portfolio level as the weighted average ESG Score.

Freedom House

The US non-governmental organisation Freedom House conducts research on democracy, political freedoms and human rights. Freedom House rates states on a scale of 0 to 100 points with regard to political and civil rights. A maximum of 40 points can be attributed in the area of political rights and a maximum of 60 points in the area of civil liberties.

Benchmark for ESG metrics: JPM GEMBI IG Index (Corporate Bonds)

Portfolio as of 31 Jul 2024. Source: MSCI ESG, own calculations and presentation. Certain information © 2023 MSCI ESG Research LLC. Reproduced by permission. Data coverage for fund and benchmark: graph CO2-Intensity(100.00%/93.00%), graph ESG Score (99.31%/93.26%). Liquidity and securities which are not covered by MSCI ESG are excluded from the calculation of the ESG metrics for the fund as well as the benchmark. The weights of the remaining fund and benchmark components are normalised to 100%.

Opportunities

- Positive return potential and current income from coupon collection
- Attractive growth prospects in emerging markets
- Possible additional income through security analysis and active management

Risks

- The fund is subject to general market risk
- Increased price fluctuations and risk of loss or default possible when investing in emerging markets
- Increased price fluctuations and default risks possible with high-yield investments and investments with increased credit risks

Further details on the opportunities and risks of this fund can be found in the sales prospectus.

Important notes:

This information is a marketing communication. It is intended exclusively for clients in the "professional clients" client category pursuant to section 67(2) of the WpHG and/or "eligible counterparties" pursuant to section 67(4) of the WpHG, and is not meant for private clients. This information and references to issuers, financial instruments or financial products do not constitute an investment strategy recommendation pursuant to Article 3 (1) No. 34 Regulation (EU) No 596/2014 on market abuse (market abuse regulation) nor an investment recommendations pursuant to Article 3 (1) No. 35 Regulation (EU) No 596/2014, both provisions in connection with section 85 (1) of the German Securities Trading Act (WpHG). As a marketing communication this document does not meet all legal requirements to warrant the objectivity of investment recommendations and investment strategy recommendations and is not subject to the ban on trading prior to the publication of investment recommendations and investment strategy recommendations. This document is intended to give you an opportunity to form your own view of an investment. However, it does not replace a legal, tax or individual financial advice. Your investment objectives and your personal and financial circumstances were not taken into account. We therefore expressly point out that this information does not constitute individual investment advice. Any products or securities described may not be available for purchase in all countries or only in certain investor categories. This information may only be distributed within the framework of applicable law and in particular not to citizens of the USA or persons resident in the USA. The statements made herein have not been audited by any external party, particularly not by an independent auditing firm. Any future returns on fund investments may be subject to taxation, which depends on the personal situation of the investor and may change in the future. Returns on investments in foreign currencies may increase or decrease due to currency fluctuations. The purchase, holding, conversion or sale of a financial instrument, as well as the use or termination of an investment service, may give rise to costs that affect the expected income. In the case of investment funds, you should always make an investment decision on the basis of the sales documents (key investor document, presentation of past performance, sales prospectus, current annual, if applicable, semi-annual report), which contain detailed information on the opportunities and risks of the relevant fund. In the case of securities for which a securities prospectus is available, investment decisions should always be made on the basis of the securities prospectus, which contains detailed information on the opportunities and risks of this financial instrument, otherwise at least on the basis of the product information document. An investment decision should be based on all characteristics of the fund and not just on the sustainability-related aspects. All the aforementioned documents can be obtained from Joh. Berenberg, Gossler & Co. KG (Berenberg), Neuer Jungfernstieg 20, 20354 Hamburg, Germany, free of charge. The fund sales documents and the product information sheets for other securities are available via a download portal using the password »berenberg« at the Internet address <https://docman.vwd.com/portal/berenberg/index.html>. The sales documents of the funds can also be requested from the respective investment management company. We will be pleased to provide you with the specific address details upon request. A fund investment involves the purchase of shares in an investment fund, but not a specific underlying asset (e.g. shares in a company) held by that fund. The statements contained in this document are based either on own company sources or on publicly accessible third-party sources, and reflect the status of information as of the date of preparation of the presentation stated below. Subsequent changes cannot be taken into account in this document. The information given can become incorrect due to the passage of time and/or as a result of legal, political, economic or other changes. We do not warrant the accuracy, completeness or timeliness of this information. This information is a marketing communication. Please refer to the online glossary at www.berenberg.de/glossar for definitions of the technical terms used in this document.

Sector Allocation by GICS The Global Industry Classification Standard ("GICS") was developed by and is the exclusive property and a service mark of MSCI Inc. ("MSCI") and Standard & Poor's, a division of the McGraw-Hill Companies, Inc. ("S&P") and is licensed for use by Joh. Berenberg, Gossler & Co. KG. Neither MSCI, S&P nor any third party involved in making or compiling the GICS or any GICS classifications makes any express or implied warranties or representations with respect to such standard or classification (or the results to be obtained by the use thereof), and all such parties hereby expressly disclaim all warranties of originality, accuracy, completeness, merchantability and fitness for a particular purpose with respect to any of such standard or classification. Without limiting any of the foregoing, in no event shall MSCI, S&P, any of their affiliates or any third party involved in making or compiling the GICS or any GICS classifications have any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

On MSCI ESG Research: Although Joh. Berenberg, Gossler & Co. KG's information providers, including without limitation, MSCI ESG Research LLC and its affiliates (the "ESG Parties"), obtain information (the "Information") from sources they consider reliable, none of the ESG Parties warrants or guarantees the originality, accuracy and/or completeness, of any data herein and expressly disclaim all express or implied warranties, including those of merchantability and fitness for a particular purpose. The Information may only be used for your internal use, may not be reproduced or disseminated in any form and may not be used as a basis for, or a component of, any financial instruments or products or indices. Further, none of the Information can in and of itself be used to determine which securities to buy or sell or when to buy or sell them. None of the ESG Parties shall have any liability for any errors or omissions in connection with any data herein, or any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

Benchmark for ESG metrics: Information has been obtained from sources believed to be reliable but J.P. Morgan does not warrant its completeness or accuracy. The Index is used with permission. The Index may not be copied, used, or distributed without J.P. Morgan's prior written approval. Copyright 2021, J.P. Morgan Chase & Co. All rights reserved.

© 2022 Morningstar. All Rights Reserved. The information contained herein: (1) is proprietary to Morningstar; (2) may not be copied or distributed; and (3) is not warranted to be accurate, complete or timely. Neither Morningstar nor its content providers are responsible for any damages or losses arising from any use of this information. Past performance is no guarantee of future results.

BVI method: The charts and tables regarding performance shown here are based on own calculations according to the method developed by the German Investment Funds Association (BVI). They illustrate past performance. Future performance can deviate both positively and negatively from these calculations. Gross performance (BVI method) takes into account all charges at fund level (e.g. management fee), net performance plus the issue surcharge. As no issue surcharge is incurred for this share class the gross performance corresponds to the net performance. Additional charges can arise for individual investors (e.g. custody account fees, commissions and other fees). Also, fees may be charged for the administration of the safe custody account, which will lower the performance. Past performance is not a reliable indicator of future performance.
